

LSA-VSW-100U-24V

LED DIMMER SWITCH AND DRIVER

Project _____

Location _____

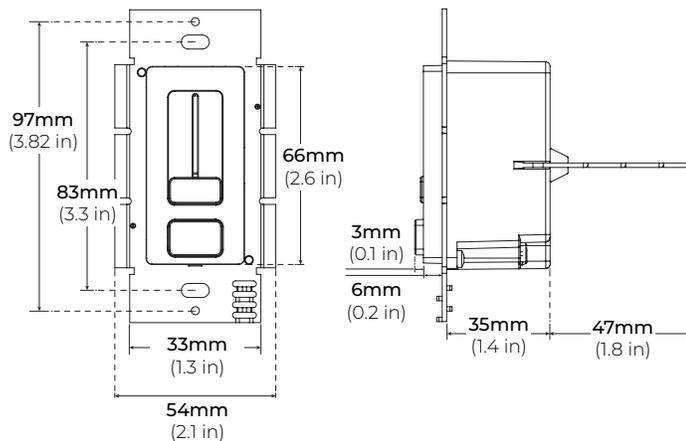

Quote/ Ref # _____

LED dimmer switch and driver combo designed to simplify LED lighting systems. This low voltage dimmer and driver is compatible with most 24V tape lights and fits/mounts into standard in-wall electrical boxes. Dimming is controlled by an adjustable sliding lever that controls the output voltage.

SPECIFICATIONS

INPUT VOLTAGE	120V AC
MAX OUTPUT POWER	100W
OUTPUT VOLTAGE	24V DC
OUTPUT CURRENT RANGE	4.2A
EFFICIENCY	Up to 91%
DIMMING	1~100% of Light Output
THD	<20%
MAX CASE TEMPERATURE	194°F (90°C) *Measured at Hot Spot
POWER FACTOR	>0.9
START TIME	500ms typical

DIMENSIONS

FEATURES

- LED Dimmer Switch and Driver Combo
- 100%~1% Smooth Dimming
- ON/ OFF Push Switch
- Fits in a Standard Recessed Electrical Box
- No Minimum Lead
- No Derating Required
- Face Plates in White, Almond and Brown included

APPLICATIONS

- Downlight
- Track Light
- Strip Lights
- Under-Cabinet Lighting

FACE PLATES (INCLUDED)

WHITE

ALMOND

BROWN
