Quote/ Ref # \_\_\_\_\_

The **ALP-3900TL** is an architectural-grade aluminum extrusion engineered for trimless cove LED lighting, delivering a clean, seamless recessed installation that blends effortlessly into drywall or plaster ceilings and walls. Designed to accommodate LED tape light up to 10 mm wide, it supports a variety of high-performance LED strips for versatile lighting applications. Constructed from high-quality aluminum, the profile offers excellent thermal management for higher-wattage tape lights, helping maintain performance and extend the overall lifespan of the lighting system.

### SPECIFICATIONS

TYPE	Recessed
LED STRIP	Up to 10mm (0.39")
