The **ALP-60** is an Architectural-grade LED extrusion designed for surface mount applications and can fit linear LED strips up to 11mm (0.43") wide. Made from high quality aluminum, these extrusions provide superior thermal management for higher wattage LED strips and prolong the lifespan of your lighting system. This surface mount profile is manufactured with a patented frosted diffuser for maximum lumen output and wider beam distribution. These aluminum profiles are an elegant design solution for any space.
