

INSTALLATION GUIDE

PRE-INSTALLATION

120V

Disconnect power source prior to installation.

- Thoroughly clean where the LED light will be installed.
- Test the LED light before beginning the installation process to confirm no damage has occurred during transport.

SAFETY

Read all instructions before installation.

These products may represent a possible shock or fire hazard if improperly installed.

Do not install less than 6 inches from a combustible material.

- ⚠ Product should be installed by a qualified electrician.
- ⚠ Product should be installed in accordance with these instructions and current electrical codes.
- ⚠ Must be installed with CORE Lighting Drivers
- ⚠ Product is 120V. Do not connect to 12V/24V power source.

INSTALLATION

STEP 1

Align the profile on your chosen mounting surface. Using a pencil, mark and measure where your channel and mounting clips will be placed. (Figure 1)

STEP 2

Screw the profile into the marked location. (Figure 2)

STEP 3

Firmly press the LED light into place. (Figure 3)

Wire as needed.
