The **ACL-1004** is a recessed, Architectural Grade LED extrusion profile designed for linear LED strips up to 13.3mm (0.52 in) wide. Made from high quality anodized aluminum, these extrusions provide superior thermal management for higher wattage LED strips and prolong the lifespan of the lighting system. This surface mount profile comes with a patented frosted diffuser lens for maximum lumen output and wide beam distribution. The ACL-1004 profile helps protect LED's from dust and other undesirable elements, which can shorten the LED's life. They are also an elegant design solution for any space.
