

INSTALLATION GUIDE

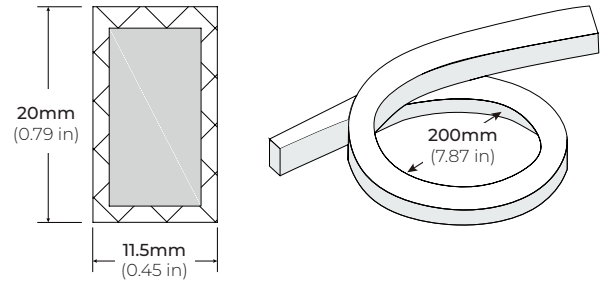

PRE-INSTALLATION

In-Ground

Power input is 24V or 48V DC. Confirm the source voltage is compatible.
Disconnect power source prior to installation.

DIMENSIONS

SAFETY

Read all instructions before installation.

These products may represent a possible shock or fire hazard if improperly installed.

Do not look directly into light.

Product should be installed by a qualified electrician.

Product should be installed in accordance with these instructions and current electrical codes.

INSTALLATION

STEP 1

Drill several drainage holes at the bottom of the aluminum profile. (Figure 1)
**Factory recommends drilling one hole every 24 inches.*

STEP 2

Install LED strip by gently pressing it into the aluminum profile. (Figure 2)

STEP 3

Based on the length of the light fixture, cut a groove into the designated installation surface. (Figure 3)
**Refer to dimensions for height measurement*

STEP 4

Insert fixture into the prepared groove and wire accordingly. (Figure 4)
